"Kickboxing is an arena where I can express myself as a complete human being physically, mentally and spiritually. Some of the most meaningful moments in kickboxing were when I have had the opportunity to help others. Whether it has been to be there for a friend in my team going through times, helping a kids , teenager ,adult developing personal and kickboxing skills, or teaching self defense to women, kids as coach in the India , the small moments when I have been lucky to do something helpful for others has made a big impact on my life.
